"If anyone who's not familiar with "The Horse Crazy Cowgirl Band" in live performance has wondered what all the whoop-de-do is about, let them hear the newest recorded effort from the Washington state trio. In this CD [My Horse Knows the Way Home] it has all come together. Co-founder Lauralee Northcott calls this one their best CD yet. I agree. When I've seen them in front of an audience, I've been wowed at the sound and performance dynamics. From the vocal blend and the seemingly carefree joy of presentation to the interesting, fresh material chosen... it all works this time and works well."
